

The radio station K-LOVE is an inspiration to me on a daily basis. It provides positive family friendly music that I can share with my children. K-LOVE is an asset to my community as there is only one other local station that plays somewhat the same type of music. K-LOVE provides fun, positive and encouraging music to people of all ages. If this station were displaced by a LPFM station there would be less choice for listeners here in this city. Please do not replace our family's favorite station with anything else. Thank you
